

THINKING OF TEACHING? PASSIONATE ABOUT SCIENCE?

St John the Baptist Teaching School Alliance
are providing you with in the opportunity to become a

Science Specific Assistant Teacher

as part of our

UNDERGRADUATE & GRADUATE PLACEMENT SCHEME

sjbsurrey_TS | booking@sjb.surrey.sch.uk

The Role

St John the Baptist School is facilitating a number of placements for undergraduate and graduate work experience students across Surrey region within local secondary schools. As a Science Specific Assistant Teacher you will be working as part of the science team to support students on a daily basis.

Your role will be varied and include:

- Supporting in science lessons;
- Facilitating small withdrawal groups;
- One-to-one support;
- Preparation of support materials;
- Assessment, recording and reporting of progress;
- Provision of extra-curricular opportunities.

The paid placement will run from 1st September 2021 until the 31st July 2022 with an additional 4 weeks internship during July 2021.

Who is it aimed at?

The post would suit anyone who is thinking of embarking on a career in teaching at some point in the future as it offers successful candidates the opportunity to gain valuable insight into how schools work and how students learn best.

Why become a Science Teacher?

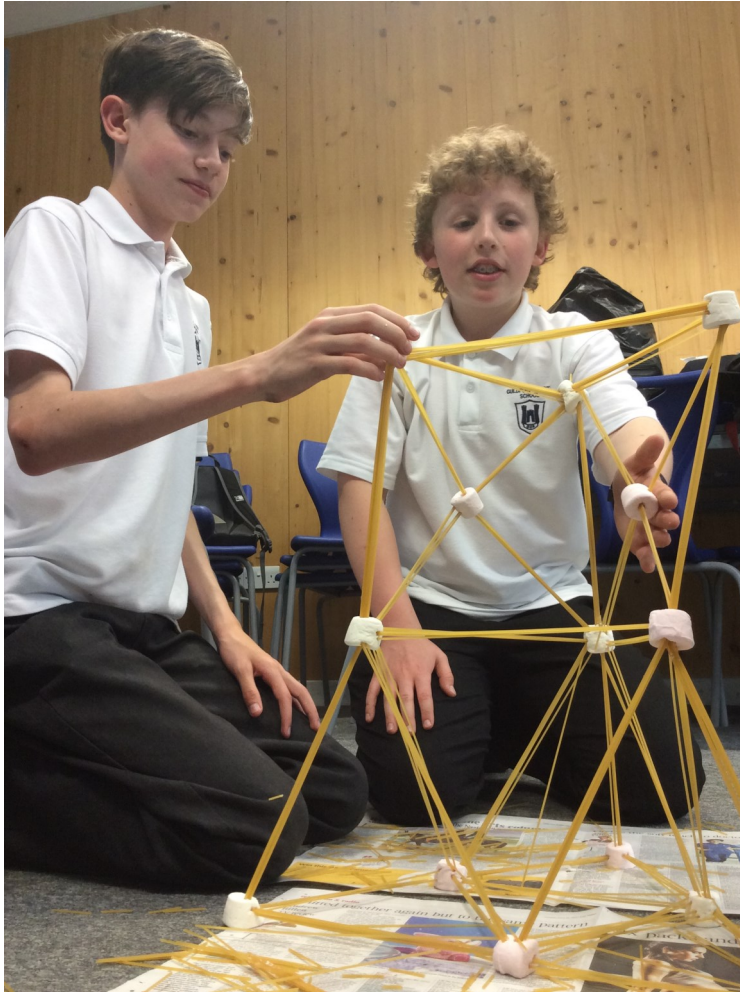

Great science, physics, chemistry, biology and computer science teachers are in high demand and with good reason! A career in teaching science presents challenge, reward and significant opportunities.

There is a national shortage of science teachers in England, and extra incentives are in place to encourage talented, knowledgeable people to apply for a career in teaching science. If you have a top degree, training bursaries of up to £25,000 are available.

After qualifying from your training, you will benefit from a competitive salary, starting at a minimum of £22,023, excellent training and great opportunities for career progression. A great classroom teacher can earn up to £65,000 as a leading practitioner - with the job security of knowing that great science teachers will always be in high demand.

Get all the information you need about a career in teaching and how to get there at www.education.gov.uk/get-into-teaching

Teacher training opportunities

The St John the Baptist School works very closely with Teach@SouthEast and The i2iPartnership which provide School Centred Initial Teacher Training (SCITT) and School Direct places for both primary and secondary teachers.

Further information can be found on their websites:

www.teachsoutheast.co.uk

www.i2ipartnership.co.uk

If you decide to pursue a career as a science teacher we will support you with the application and interview process.
